Abstract (en)
[origin: EP3420830A1] The present invention relates to a knitted protective sock (1) for protecting and supporting a wearer (100) during sports, comprising a tubular leg part (2) having an opening (3) and a first area (4), the first area being configured to be arranged opposite a tibia (5) of the wearer, the tubular leg part comprising an interknitted pocket (6) arranged in the first area, the pocket being configured to accommodate a replaceable protective member (10), the tubular leg part further having a first compression rate, a tubular foot part (7) having an upper face area (8) and a lower face area (9), the lower face area being configured to be arranged opposite a sole of a foot of the wearer, a tubular ankle part (12) arranged between the foot part and the leg part and having an ankle area (13), the ankle area being configured to be arranged opposite an Achilles tendon of the wearer, wherein the ankle area has a second compression rate, the second compression rate being larger than the first compression rate. The present invention also relates to a protective sport kit comprising a pair of knitted protective socks (1) according to the present invention and two mouldable replaceable protective members (10).
