Abstract (en)

[origin: WO2019011664A1] The invention relates to a composition comprising a scent, characterized in that a cannabis smoker when exposed to the scent experience one or more of: a response in the cannabis smoker that in at least one parameter corresponds to a physiological response experienced in the same cannabis smoker upon smoking of cannabis, or a euphoric effect that in at least one parameter corresponds to an effect experienced in the same cannabis smoker upon smoking of cannabis. Present invention also relates to novel methods of extraction and apparatus for use in such extractions, in particular using ethanol at $t < 5^{\circ}\text{C}$.
