Abstract (en)

[origin: WO2019224692A1] A thermoadhesive label with embossed graphic effects comprises a support element (2) provided with a first face (2a) substantially flat and a second face (2b) having an embossed portion (5) made of catalysed silicon material (6) and a transferable element (3) provided with a graphic portion (3a) provided with at least one polymeric layer (7) printed directly on the second face (2b) of the support element (2) and counter-shaped to it so as to cover its bulges (5b) and fill the depressions (5a) and an adhesive portion (3b) provided with at least one adhesive layer (12). The polymeric layer (7) is made of dried single-component polyurethane resin, non-catalysed and non cross- linked.
