Abstract (en)

[origin: WO2019002712A1] The invention concerns a tyre provided with an object attached to said tyre, said tyre comprising, at the interface between the tyre and the attached object, an adhesive layer with a thickness of between 1 and 5 mm, characterised in that said adhesive layer is made from a self-adhesive silicone composition. The invention also concerns the method for attaching an object to a tyre comprising the steps of applying, to the object and/or to the tyre, an adhesive layer comprising a self-adhesive silicone composition, said adhesive layer having a thickness of between 1 and 5 mm; and of joining the object and the tyre.
