Abstract (en)
[origin: WO2019002713A1] The voltage converter (104) comprises: - a first heat dissipator (302); - at least one controllable switch (112, 114) having a heat dissipation face in thermal contact with the first heat dissipator (302); and - at least one capacitor (124). The voltage converter (104) further comprises a second heat dissipator (316) and a heat dissipation face (204) of each capacitor (124) is in thermal contact with the second heat dissipator (316).
