Abstract (en)
The invention relates to a brush and a mascara container including same. The brush includes a brush rod connecting portion having one side portion made of a twisted wire and a plurality of other side portions branched from the one side portion; a brush body integrally formed at the other side portions to be extended from the other side portion of the brush rod connecting portion to form a hoop structure or a closed loop structure; and a plurality of fibers pressed by the twisted wire of the brush body and protruded toward the inner side and outer side of the brush body.
