Abstract (en)

[origin: WO2019012113A1] The present invention relates to a device (1) for sterilising a surface of a container treatment system, preferably a dry septic system, comprising a heating device (14) for heating a carrier fluid, a metering device (2) for metering a sterilising agent into the carrier fluid, and an application device (100, 110) for applying the heated mixture of carrier fluid and sterilising agent to the surface to be sterilised.
