Abstract (en)
[origin: WO2019012352A1] The plant object of the present invention relates to an operating unit able to carry out a rapid assembly, i.e. a. safe, simple and portable pack 1 made by three straps : one applied on the lower half of the body of the bottles 1, the second one applied at the neck of the bottles 1, both arranged on planes perpendicular to the vertical axes of the bottles themselves 1, the third one 1 being instead applied loosely and perpendicularly with respect to the other two straps, lays on a vertical plane passing through the gravity centre of the pack,, i.e, it is arranged on a plane comprised between two adjacent rows of bottles 1 contacting each other for example in the plane separating the two rows of three bottles 1 of the standard pack of six bottles 1.
