Abstract (en)

[origin: WO2019016220A1] The invention relates to a cylinder head (1) of a heat engine, comprising: a cylinder head body (2) to be mounted on a cylinder block of the engine, said cylinder head body (2) having an exhaust side (11); and a cylinder head cover covering the cylinder head body (2). According to the invention, the cylinder head body (2) comprises an exhaust pipe (24) connected to an outlet (22) and located on the exhaust side (11), said exhaust pipe (24) being open opposite the cylinder head cover.
