Abstract (en)

[origin: WO2019015924A1] A set of parts for a radial fan comprises a fan wheel (2), a basic housing part (1) and a first complementary housing part (3), which can be brought together to form a first housing that encloses the fan wheel and has an inlet opening (27) and an outlet (23), characterised in that at least one second complementary housing part (3', 3''), the shape of which differs from the first complementary housing part (3), can be connected to the basic housing part (1) instead of the first complementary housing part (3) to form a second housing.
