Abstract (en)

A spring mattress with a softness adjustable mechanism includes an upper mattress body (1), a lower mattress body (2), a plurality of springs (3), and a plurality of softness adjusting units (4). An accommodating space (21) is formed between the upper mattress body (1) and the lower mattress body (2). The springs (3) and the softness adjusting units (4) are disposed in the accommodating space (21). The softness adjusting units (4) are spaced apart from each other, and the softness adjusting units (4) respectively abut against the springs (3) to adjust elasticities of the springs (3).
