Abstract (en)

[origin: WO2019020796A2] The invention relates to a device (15) for supplying compressed gas to a spraying device operating with compressed gas. The device (15) comprises at least one connection means (16) for a compressed gas source and at least one humidifying unit (18), preferably a tank. The humidifying unit (18) comprises, preferably an aqueous liquid which is diluted with the compressed gas, also comprising at least one heating means (19, 19', 19'') for controlling the temperature of the liquid and/or the compressed gas.
