Abstract (en)

[origin: WO2019063243A1] The invention relates to a module set (1) for making circuit breakers (100). The module set (1) comprises a type of identical switching units (3), at least one type of identical switching unit frames (5, 7), each of which can be connected to a switching unit (3), and at least one type of identical switching unit frame adapters (9, 10), each of which can be connected to a switching unit and to a switching unit frame (5, 7).
