Abstract (en)
[origin: WO2019030644A1] It is disclosed a device (100) for generating at least one abdominal massage comprising a main body (20) which can be positioned onto a user's abdomen; at least two inflatable cushions (40a, 40b, 40c) carried by the main body (20); inflation (41a, 41b, 41c) and deflation (42a, 42b, 42c) means for inflating and deflating said at least two inflatable cushions (40a, 40b, 40c) placed in said main body (20); and an electronic control unit (80) placed in said main body (20) and configured to control said inflation means (41a, 41b, 41c) to inflate and deflate said inflatable cushions (40a, 40b, 40c) according to at least one predetermined inflation and deflation program, thereby generating at least one abdominal massage. A method for generating at least one abdominal massage, carried out by using the aforesaid device (100) is also disclosed.
