Abstract (en)
[origin: EP3666483A1] The present invention provides an engineered flooring plank (1) comprising a base layer (2) of wood substitute material, a real wood veneer layer (3) adherent to the top of the base layer (2) of the wood substitute material, and a bonding adhesive layer (4) provided to bond the real wood veneer layer to the base layer; and wherein the real wood veneer layer (2) is provided with at least one recess (5) selected from one or more of the following; a wood knot (12), a wood pore (13), a wood crack (14) or a wood nerve (15), and at least one recess (5) on the real wood veneer layer (2) exposes an underlying layer (2,6), which underlying layer comprises at least one dark-coloured pigment substantially absorbing light in the visible spectrum.
