Abstract (en)
[origin: WO2019034770A1] The subject of the invention is a composition in gel or cream form comprising at least one solvent and at least one extract of Lawsonia inermis, said extract being present at between 1 and 10% by weight of the total weight of the composition. Another subject of the invention is a process for producing such a composition and the use thereof, in particular a process for the permanent colouring of the hair on the head and/or on the body.
