Abstract (en)
[origin: WO2019034201A1] The invention relates to a system (1) consisting of a first plug module (2) and a second plug module (3), which can be plugged together, wherein the first plug module (2) has a locking means, whereby the plug modules (2, 3) can be reversely locked to each other. Said system can be arranged within the housings of industrial plugs and is thus better protected from mechanical loads.
