Abstract (en)
A vehicle canopy adapter 10 is provided for mounting at least two different types of canopies 110, 600 having different canopy connections to a vehicle 1000 with a cab and an open cargo area. The adapter 10 includes a body 12 for fitting to the cab, and first and second arms 14 which extend from a lower edge of the body to the same side of the body 12 for connection to respective sides of the cargo area. Frame connection areas 18, 20 are provided on the body 12 and also on each arm 14 towards distal ends 14a thereof for receiving a canopy frame 100. Each arm 14 includes a substantially linear rail 16 for receiving a retractable canopy 600, the rails 16 being substantially parallel with each other and extending from a distal end 14a of the respective arm 14 towards the body 12.
