Abstract (en)
[origin: WO2019038247A1] A rock bolt and meshing assembly for installation of meshing sheet against a surface of rock strata. The rock bolt comprises an adapter having a first portion connectable to a trailing end of an elongate shaft of the rock bolt and an elongate extension configured to receive and mount a meshing plate to overlay a second section of meshing sheet against an already laid first section of meshing sheet.
