Abstract (en)
[origin: WO2019042873A1] The invention relates to a laundry-care appliance (100) comprising a metering module (105) for metering a liquid laundry-care substance during a metering process, wherein the metering module (105) has a storage container (109-1, 109-2) for receiving the liquid laundry-care substance, and comprising a receiving container (101) for receiving the metering module (105) in the laundry-care appliance (100). The metering module (105) has a pump element (107) which is designed to pump the liquid laundry-care substance out of the storage container (109-1, 109-2) into the receiving container (101). The pump element (107) can be removed from the metering module (105).
