Abstract (en)  
[origin: KR20190019021A] A display apparatus includes: a display assembly; and a mounting device on which the display assembly is supported. The mounting device includes: a stand having a supporting boss; a rail disposed on a rear surface of the display assembly, and moving the display assembly in a straight line direction with respect to the supporting boss; and a rotation guide disposed at an end of the rail such that the display assembly rotates with respect to the supporting boss, wherein the display assembly is rotatable when the supporting boss is positioned on the rotation guide.
