Abstract (en)

[origin: CN111434250A] The invention relates in particular to a storage device (10) for storing rod-shaped articles of the tobacco processing industry, in particular filter rods. The storage device (10) is provided with a receiving storage device (20) used for rod-shaped articles and an article input device arranged on the receiving storage device (20), wherein a working storage (30), which can be adapted to the storage volume of the receiving storage device (20) and is used for the rod-shaped articles, is arranged below the receiving storage device (20), and the rod-shaped articles from the receiving storage device (20) can be placed in the working storage (30).
