Abstract (en)

[origin: WO2019053119A1] The invention relates to an exhaust hood (2), comprising a fan housing and a fitting part as a fastening device for installation in a suspended cabinet. In order to make the installation of an exhaust hood in a suspended cabinet easier, according to the invention, a frame element (4) is used as a fitting part for connecting the exhaust hood (2) to the suspended cabinet, the frame element (4) is provided with at least one first frame portion (6) having a vertical contact surface (12) for contact and fastening to a side wall of the hanging cabinet, and with a second frame portion (8), which in some areas overlaps the fan housing in the installation position of the exhaust hood (2). On the frame element (4), a hook receptacle (14) is formed, and on the fan housing, a hook (16) corresponding to the hook receptacle (14) is arranged.
