Abstract (en)
[origin: WO2019057979A1] The invention relates to a method and a system for preparing a beverage. In particular, the invention relates to a method and a system for preparing beverages according to a person-specific, customized recipe. The method for preparing a beverage according to a customized recipe is carried out by using a preparation device (10) having a placement device (13) for a drinking vessel (20) and a receiving device (11) for an identification feature, and by using the drinking vessel (20), and comprises the steps: generating a customized recipe; storing the customized recipe in a recipe pool of a data storage unit (30), the data storage unit (30) being accessible via an EDP-network; linking the identification feature to the recipe pool; placing the drinking vessel (20) in the preparation device (10), receiving the identification feature, retrieving the recipe pool linked to the identification feature, and the preparation device (10) preparing the beverage according to a recipe from the recipe pool and pouring the beverage into the drinking vessel (20). The system according to the invention has the components for carrying out the method.
