Abstract (en)
[origin: WO2019067889A1] A hairpiece holder that includes a first portion and a second portion. The first portion may include one or more protrusions extending therefrom, which protrusion(s) may be adapted to position at least one hairpiece relative to the first portion. The second portion may be couplable to the first portion. And when the first and second portions are in a closed position, the first and second portions may define a sealed cavity which encloses the protrusion(s).
