Abstract (en)
[origin: GB2566981A] A plumbing trap 10 comprises a body 12 to be connected to an underside of a plumbing installation and aligned with an outlet from the plumbing installation. The body includes an inlet (18 figure 1A), an outlet (20 figure 1A), a first internal compartment 14 and a second internal compartment 16. The first compartment 14 is in direct fluid communication with the inlet (18 figure 1A) and the second compartment 16 is in direct fluid communication with the outlet (20 figure 1A) and the first internal compartment 14 is wider than the second compartment 16. The first compartment 14 and the second compartment 16 are disposed side by side and both are visible and accessible via the inlet (18 figure 1A).
