Abstract (en)

[origin: WO2020095086A1] The invention relates to a tube (1), in particular for an air distribution system in buildings or parts thereof, comprising an inner wall (2), an outer wall (4) surrounding the inner wall and an intermediate space (3) between the inner wall (2) and the outer wall (4). The intermediate space (3) is filled at least in partial regions with a sound-absorbing material (5).
