Abstract (en)  
The present disclosure discloses a lamp mounting structure, comprises a lamp body and a mounting member. The mounting member is disposed with one or more positioning member and one or more marking device. The lamp body is disposed with one or more auxiliary positioning member and one or more marking position. When each of the one or more marking device is aligned with a corresponding one of the one or more marking position, each of the one or more positioning member and a corresponding one of the one or more auxiliary positioning member are limited by each other, so that the lamp body and the mounting member are fixedly connected.
