Abstract (en)
An indoor unit (100) and air conditioner equipped with it, where the indoor unit (100) is composed of the housing (1), the fan assembly (2), the first driving mechanism (4), the first door (3), the second driving mechanism (6) and the second door (5). The first door (3) has open state and closed state; in the open state, the first driving mechanism (4) drives the first door (3) to move relative to the housing (1) into the set position to open the first air outlet (11a); in the closed state, the first door (3) works with the housing (1) to close the first air outlet (11a), while the second driving mechanism (6) drives the second door (5) to slide relative to the housing (1) to open or close the second air outlet (11b).
