Abstract (en)
[origin: WO2019072924A1] The invention relates to a refrigerated cabinet (10) with built-in hydraulic regulation, and to a refrigerating system (100), said refrigerated cabinet (10) comprising an internal refrigerant circuit and connections (14, 16) for connection to a central refrigerant conduction system (120). The internal refrigerant circuit comprises at least one conveyor device and a refrigerating device (30), a hydraulic switch (22) being arranged between the internal refrigerating circuit and the connections (14, 16) to the central refrigerant conduction system (120). A refrigerant system (100) comprises at least one refrigerated cabinet (10) which is connected to a cold generator (110) by means of a refrigerant conduction system.
