Abstract (en)

[origin: EP3696337A1] A building board, which comprises a core material layer and at least one surface layer arranged on a first planar surface of the core material layer. The core material layer comprises inorganic binder and 1-20 weight-% of crushed foam insulation calculated from the total mass of the binder and crushed foam insulation , and the surface layer comprises one or more reinforcement layers, and/or a metal board and/or a composite board comprising metal. The building board can be used in partition wall structures.
