Abstract (en)
[origin: WO2019076831A1] The invention relates to a pushchair seat (11) for mounting on a pushchair chassis (10), comprising a seating surface (19) and a backrest (16), wherein the backrest (16) has a distal section (17) and a proximal (18) section which can be rotated relative to the distal section in such a way that the backrest (16) can be folded up from an unfolded backrest usage position into a collapsed backrest storage position.
