Abstract (en)

[origin: WO2019076652A1] The invention relates to adhesive strips having at least one layer (SK1) of a self-adhesive mass partially foamed with microballoons, wherein the degree of foaming of the layer (SK1) is at least 20% and less than 100%. The invention also relates to a method for the production thereof and to the use thereof for adhesively bonding components such as, in particular, batteries and electronic devices such as, in particular, mobile devices.
