Abstract (en)
[origin: WO2019083473A2] The invention is SAFE (Suicide And Fall Estop) which is intended to prevent suicide attempts or accidents that may result in death by free fall from high structures such as bridges, viaducts and buildings that allow passage through obstacles such as rivers and elevations and can be used as a high security element to prevent falling during maintenance of said structures, bridges, viaducts automatically or manually.
