Abstract (en)  
[origin: WO2019084613A2] A bra including: an elongated front strap; and an elongated back strap; wherein at least one end portion of the back strap is adapted to overlap and be fastened to at least one corresponding end portion of the front strap, so that the bra can be put on and fastened to a wearer's torso by using a single hand; and wherein at least one of the end portions of at least one of the front strap and the back strap includes an elongated stiffening element, the stiffening element stiffening the end portion horizontally to maintain a horizontal orientation of the end portion when the bra is hanging on the wearer's body before being fastened.
