Abstract (en)

[origin: WO2019086423A1] The invention relates to the field of lubricants and provides a lubricating composition comprising at least one base oil, the kinematic viscosity of which measured at 40°C does not exceed 10 mm²/s and the pour point of which does not exceed -50°C, and at least one thickener, said lubricating composition having a pour point not exceeding -55°C.
