Abstract (en)

[origin: EP3704983A1] The present invention relates to a protective helmet for motorcyclists with a sun visor, with a helmet body provided with a front opening, a sun visor, and a rotary operating mechanism for rotatably operating the visor with respect to a horizontal axis. The visor rotates between an inoperative upper position, in which said visor is arranged inside the helmet body, and an operative lower position, in which said visor is arranged in front of the helmet user's eyes.
