Abstract (en)
[origin: WO2019084586A1] Pole-grip arrangement (1) for hiking poles, trekking poles, Nordic walking poles, (cross-country) ski poles and the like, having a pole grip (4) and a hand strap (30), wherein the hand strap (30) is connected to a connecting element (12) which can be introduced into the pole grip (4) in a push-in direction (X) and is in releasable engagement with the pole grip (4), wherein the connecting element (12) is designed, and arranged in the pole grip (4) in a use position, such that at least one portion of the connecting element (12) can be pivoted, about a longitudinal axis (D) of the connecting element (12), between a securing position and a release position and, in the release position, the connecting element (12) can be displaced in a removal direction (Y) and removed from the pole grip (4), wherein, in the securing position and in the release position, the longitudinal axis (D) of the connecting element (12) is oriented in the same way in relation to the pole grip (4), and the removal direction (Y) extends substantially transversely to the push-in direction (X).
