Abstract (en)

[origin: JP2019084821A] To provide a decorative film which can provide a design changing according to light in the ambient environment and light from a light source disposed behind, and can be used in a molding method of covering an article having a three-dimensional shape by heat-stretching. SOLUTION: The light-transmissive decorative film according to an embodiment of the present disclosure, which can cover an article having a three-dimensional shape by heat-stretching, includes an upper design layer having optical transparency, a reflective layer, and a lower design layer having optical transparency in this order, and the OD value of the reflective layer is from 0.7 to 1.7. SELECTED DRAWING: Figure 1
