Abstract (en)
[origin: US2019143001A1] A bioinductive patch includes a patch body and a button. The patch body has an inner space. The button is disposed in the inner space of the patch body. A method for manufacturing a bioinductive patch includes step in which a patch body having an inner space is provided. The method continues with step in which a button is disposed in the inner space of the patch body.
