Abstract (en)  
[origin: WO2019032000A1] The present invention relates to a quick coupler (1 ) suitable for use in connecting at least one attachment (2) with a construction equipment machine or the like. The quick coupler (1 ) comprising at least one first coupling device (4) comprising at least one first coupling bracket (6) suitable for connection with at least one first fastener (10) in the attachment (2) and at least one second coupling device (5) comprising at least one coupling bracket (8) suitable for connection with at least one second fastener (1 1 ) in the attachment (2). The quick coupler (1 ) comprises at least one locking device (12) which, with the aid of at least one locking member (13) with at least one actuator (14), locks the attachment (2) to and respectively releases the attachment (2) from the quick coupler (1 ).
