Abstract (en)
[origin: WO2019095179A1] A product demonstration device (1) and a product demonstration method thereof are provided. The demonstration device (1) comprises a liquid container (51), a test reaction vessel (29) which is in fluid communication with the liquid container (51), a control reaction vessel (31) which is in fluid communication with the liquid container (51), a first motorized mixer (33) functionally attached to the test reaction vessel (29), a second motorized mixer (35) functionally attached to the control reaction vessel (31), a first dispensing port (21) which is in fluid communication with the test reaction vessel (29) and capable of receiving a test product, and a second dispensing port (23) which is in fluid communication with the control reaction vessel (31) and capable of receiving a control product. The product demonstration device (1) and method thereof can demonstrate a product benefit from the test product compared to the control product.
