Abstract (en)
[origin: WO2019101753A1] The invention concerns a mask for face care, comprising a support (1) to be applied on a body surface including, at least in part, the face of a user, the support (1) comprising: a first face, termed the inner face (2), intended to be facing the body surface, a second surface, termed the outer surface (3), opposite the inner face (2) and characterised in that the inner face (2) of the support (1) has a plurality of regions, termed functional regions (6, 7, 8, 13), to be applied respectively on a target area (16, 17, 18) of the body surface, the plurality of so-called functional regions (6, 7, 8, 13) comprising an adhesive matrix (5) configured to hold the mask in contact with the body surface and - an active composition comprising an active substance, at least two so-called functional regions (6, 7, 8, 13) among the plurality of functional regions (6, 7, 8, 13) having an active composition different from each other. The present invention concerns the field of cosmetic or dermatological compositions for providing care to a body surface of a user, including, at least in part, the face.
