Abstract (en)
[origin: WO2019101602A1] The invention relates to an orthotic foot part having a foot plate (10) with a heel region (11) and a front foot region (12) and at least one strut (20) extending in a proximal direction from the foot plate, wherein the foot plate (10) has a foot plate contour (13) formed of superposed, stylized contours (30, 40) of a right and left foot, wherein a recess (16) oriented in the direction of the heel region is formed in a front edge (15) of the foot plate, and the recess has a vertex (160) lying on a line of symmetry (14).
