Abstract (en)

[origin: WO2019105954A1] The invention relates to a device (20, 50) for odorizing a gas stream (21) in a gas line (22), comprising means for supplying (24) a liquid odorizing agent (82, 102) and an injecting device (30) for injecting the liquid odorizing agent (82, 102) into the gas stream (21) flowing through the gas line (22), characterized in that the injecting device (30) has a two-substance nozzle (36, 80, 100). The invention also relates to a method for odorizing a gas stream (21) in a gas line (22) in which a liquid odorizing agent (82, 102) is injected by means of a two-substance nozzle (36, 80, 100) into the gas stream (21) flowing through the gas line (22). Furthermore, the invention relates to the use of a two-substance nozzle (36, 80, 100) for odorizing a gas stream (21) in a gas line (22).
