Abstract (en)
[origin: WO2019110633A1] The invention relates to an apparatus (1) for cleaning plastic preforms (10), comprising a transport device (12) for transporting the plastic preforms (10), wherein the apparatus (1) comprises a rotatable carousel (5), on which a multiplicity of holding devices (7) for holding the plastic preforms (10) is arranged, and the transport device (12) transfers the plastic preforms (10) to the holding devices (7) of the carousel (5), wherein the apparatus (1) has at least one application device (15), by means of which a gaseous medium can be applied to an interior of the plastic preforms (10) to clean them. According to the invention, the apparatus (1) for cleaning plastic preforms (10) is of modular design.
