Abstract (en)

[origin: WO2019109340A1] Method and apparatus for managing sharing vehicle are disclosed. A method comprises obtaining identity information of a sharing vehicle to be rent by a user, wherein the identity information comprises an identity of the service provider of the sharing vehicle and a code of the sharing vehicle; sending a first renting request comprising the identity information to a sharing vehicle management node which sends a second renting request comprising an identity associated with the user and the code to the service provider, wherein the identity is registered with the service provider and the sharing vehicle management node is able to interact with one or more sharing vehicle service providers; and receiving a result of renting the sharing vehicle.
