Abstract (en)

[origin: WO2019115371A1] The invention relates to a method for producing a virtual currency (24) depending on the use of a motor vehicle (12), in which method driving behaviour information of a user of the motor vehicle (12) is determined (S2) depending on at least one driving dynamics-related parameter of the motor vehicle (12) and is transmitted (S3) to an electronic computing device (20), wherein the virtual currency (24) is produced (S5) by means of the computing device (20) depending on the transmitted driving behaviour information.
