Abstract (en)

[origin: WO2019120817A1] The present invention practically relates to systems enabling fixing an upper lid (2) provided in a cooking appliance (1) to the body of the cooking appliance (1). More clearly, according to the present invention, a cooking appliance (1) structure is proposed, having an upper lid (2) and at least one profile (3) enabling said upper lid (2) to be fixed, wherein said cooking appliance (1) further comprises a gasket (4) placed in said profile (3), inhibiting disengagement of said upper lid (2)
