Abstract (en)

[origin: WO2019120933A1] A process for manufacturing a dial (11) comprising at least one three-dimensional element (30), said process comprising the following steps: • - having a control unit (2) generate (44) at least one control instruction for a printing device (3) for reproducing a reference digital graphic representation (9a) relating to said dial (11) that is provided with at least one three-dimensional element (30), and • - having the printing device (3) construct (45) at least two superimposed layers comprising particles printed on a support element forming said dial (11), and • - removing (52) the dial (11) from said support element.
